SUMMARY

A passionate and hardworking individual with skills in web development, Amazon virtual assistance, and social media marketing. I enjoy learning new technologies, solving real-world problems, and exploring creative solutions. I'm also enthusiastic about teaching and sharing knowledge with others. I aim to grow in a professional environment where I can continue learning, add value, and make a meaningful impact.

EDUCATION

Anjuman Mufad-e-niswan School

Matriculation in Computer Science
2020 – 2021

Apwa Govt. Girls College, Karimabad

Intermediate in Commerce
2022– 2023

GIAIC – Governor Initiative for AI & Computing (Currently Enrolled)

Quarter 2 Student – Web & App Development with TypeScript and Next.js
Actively building real-world projects, learning modern web technologies, and participating in coding challenge

SKILLS

- Web Development (HTML, CSS, JavaScript, TypeScript, Next.js)
- Amazon Virtual Assistant (Product research, Listing)
- UI/UX Design (Basic knowledge with Canva and Figma)
- Team Collaboration & Time Management
- Creative Thinking & Problem Solving

PROJECTS

Portfolio Website

Built a fully responsive personal portfolio using Next.js, TypeScript, and Tailwind CSS. Integrated smooth page transitions, dark mode, and a user-friendly design to showcase skills, projects, and contact details. Focused on modern UI/UX principles and accessibility to ensure an optimal viewing experience across devices.

[View Portfolio](#)

Marketplace E-commerce Website (Shop.co)

Developed an ecommerce platform using Next.js, TypeScript, and Tailwind CSS. Features include product listing, cart functionality, and responsive design for a seamless shopping experience. Integrated payment gateways and optimized for high performance and mobile accessibility.
